

Secure brand reputation & customer safety

Secure Destruction Services

To protect quality standards, maintain safety and prevent resale, retailers, delivery companies, manufacturers, the emergency services and many other industries often need items to be permanently taken out of circulation.

Whether it is faulty, off batch or out of date products, uniforms or digital equipment containing confidential or sensitive personal data, secure destruction is the only way to prevent unauthorised selling, the risk of data breaches or identity theft - ensuring that both brand reputation and consumers are protected.

What is suitable for Secure Destruction?

Thanks to Ward's extensive recycling facilities, anything can be securely destroyed and shredded so it is no longer identifiable. Examples include, but are not limited to:

- **Off batch, out of date, faulty retail products:**
Toys, beauty items, bottled liquids
- **Uniforms:** Police, military, healthcare and business wear
- **Weapons:** Knives, guns and contraband materials
- **Testing equipment:** Cars, lab equipment and confidential prototypes

Secure Destruction & Shredding Services from Ward

Ward provides nationwide secure destruction and shredding services for all items including digital devices, out of date stock, recalled products, sensitive materials.

All load sizes can be processed, from a small van to full artic pallet loads and bulkers. Our team provides a complete service from collection to destruction, ensuring that your items have the correct protection for the material's level of sensitivity and the appropriate security level for its destruction.

Secure Destruction

WARD

Trusted Secure Destruction and Shredding Services

If you need to securely destroy items to ensure customer safety, prevent unauthorised re-sale and protect your brand, secure shredding guarantees materials are processed to the highest security classifications. This ensures that they can no longer be identified and are recycled to create solid recovered fuel, providing energy from waste.

Why choose Ward for Secure Destruction & Shredding?

- **Expertise:** All customers benefit from a free data security audit and a dedicated waste specialist
- **Flexibility:** From one off clearances to regular collections – services to suit all sizes of business and industry sectors
- **On or off-site services:** Whether it's your home, office or warehouse, we provide nationwide solutions
- **Security:** Only vetted and approved staff handle your confidential waste
- **Compliance:** All security classification levels and destruction categories are catered for to comply with appropriate legislation and regulatory requirements
- **Auditing:** A full audit trail of services is provided from collection to completion
- **Sustainability:** We recycle 100% of paper waste and divert 100% of destroyed materials from landfill by creating energy from waste
