BN21 4QT
0300 123 9000

Goods Vehicle Standard National

Licence number: OK2059871
NOT TRANSFERABLE

This licence is in force from: 21/10/2022

This licence will continue for as long as you continue to meet its terms. However, it will come to an end if you do not pay the necessary continuation fee by the date required. The licence may also face regulatory action including revocation if you operate outside its terms. You have paid for an initial period of five years, which starts with the date the licence was issued. The continuation fee must be paid before the end of the month before that five year period comes to an end and every five years after that. Please see note 1 for further details.

This document is an operator's licence issued under the Goods Vehicles (Licensing of Operators) Act 1995 (the Act). The undertakings recorded on this licence have been given by the licence holder and are considered to be material to the grant of the licence. In the case of a licence first issued before 1 January 1996, the recorded undertakings include statements of intent made by the operator.

The maximum number of motor vehicles and trailers authorised in accordance with section 6 of the Act is:

Motor vehicles	5
Trailers (inc semi-trailers)	5

Traffic Commissioner

WARD
End-of-Life Vehicle (ELV) Recycling & Recovery Confirmation
2025 Calendar Year

1st July 2026

To Whom It May Concern,

This letter confirms the level of post-shredder recycling and recovery credit that WARD is able to allocate in respect of End-of-Life Vehicles (ELVs) supplied to WARD during the 2025 calendar year, following our continued investment in advanced post-shredder recycling technologies.

The statutory End-of-Life Vehicle (ELV) targets for the 2025 reporting year remain:

- **95% Reuse & Recovery**
- **85% Reuse & Recycling**

Using the DEFRA assumed average ELV weight of 1,130 kg, the required post-shredder recycling and recovery contribution is 176 kg per vehicle.

WARD confirms that it is able to provide the full 176 kg per vehicle of post-shredder recycling and recovery credit for ELVs supplied to our facilities during the 2025 reporting year. When combined with the standard protocol allowances for recovered metals, fluids, batteries and tyres, this enables the statutory ELV recovery target to be achieved under the current DEFRA reporting methodology.
The post-shredder allocation is comprised of:

- **80 kg per vehicle - Recycling**
- **96 kg per vehicle - Recovery**

The recycling and recovery credit applicable to your organisation should be calculated using the number of ELVs supplied by your business to WARD during the 2025 calendar year.

The Department for Environment, Food & Rural Affairs (DEFRA) requires Authorised Treatment Facilities and vehicle producers to report separately on recycling and recovery activities as part of the annual ELV reporting process. The figures contained within this letter are provided to support those reporting requirements.

WARD has continued to invest significantly in modern shredding and post-shredder separation technologies to maximise material recovery, improve recycling performance and increase energy efficiency. Achieving the statutory ELV targets requires substantial investment in advanced processing infrastructure, and WARD remains committed to delivering the highest possible recycling and recovery performance.

This confirmation applies only to ELVs supplied directly to WARD during the 2025 reporting year. Where ELVs have been supplied to other shredders, equivalent recycling and recovery evidence should be obtained from those operators.

Should you require any further information, please do not hesitate to contact our Environmental & Sustainability Team.

Yours faithfully,

Donald Ward
Director

EcoVadis
Sustainability Rating

DONALD WARD LTD

DONALD WARD LTD has earned a **Bronze Medal**, a recognition awarded to the **Top 35%** of companies assessed by **EcoVadis** in the 12 months prior to the medal issue date. It reflects the quality of the company's sustainability management system and demonstrates a commitment to promoting transparency throughout the value chain.

Modern Slavery Policy

This policy supports Donald Ward Limited's (the Company[1]) commitment to limiting the risk of modern slaver occurring within our own business or infiltrating our supply chains, or any other business relationship.

This policy applies to all persons working for, or on behalf of the Company, in any capacity, including employees, directors, officers, agency workers, contractors, consultants, apprentices and any other third party representative.

We expect all who have, or seek to have, a business relationship with the Company to familiarise themselves with this policy and to act at all times in a way that is consistent with its values.

This policy will be used to underpin and Inform any statement on slavery and human trafficking that we are required to produce further to the transparency in supply chain requirements of Section 54 of the Modern Slavery Act (MSA) 2015.

What do we mean by Modern Slavery?

Modern slavery can take many forms. It is a complex and multi-faceted problem. The MSA covers four key criminal activities:

- **Slavery:** where ownership is exercised over an individual.
- **Servitude:** involves the obligation to provide service imposed by coercion.
- **Forced and Compulsory Labour:** all work or service, not voluntarily performed, which is obtained from an individual under the threat of force or penalty.
- **Human Trafficking:** involves arranging or facilitating the travel of another with a view to exploiting them.

Other forms of modern slavery, which we will not tolerate, but are specifically referenced in the MSA include, but are not limited to:

- **Child Labour:** whilst not always illegal in the jurisdiction in which is takes place, child labour involves the employment of children that is exploitative, or is likely to be hazardous to, or interfere with a child's education, health (including mental health), physical wellbeing or social development.

All forms of modern slavery have in common the deprivation of a person's liberty by another in order to exploit them for commercial or personal gain, and amount to a violation of an individual's fundamental human rights.

Tackling modern slavery requires us all to play a part and remain vigilant to the risk in all aspects of our business and business relationships.

How we seek to embed our policy in practice.

To underpin our policy commitments, we aim to implement the following measures:

- All employees must ensure they have read, understood and comply with this policy. The prevention, detection and reporting of modern slavery in any part of our business or supply chain is the responsibility of all those working for us or under our control. You are required to avoid any activity that might lead to, or suggest, a breach of this policy.
- We will conduct risk assessments to determine which parts of our won business and which of our supply chains are most at risk from modern slavery, so we can focus our efforts on those areas most 'at risk'.
- Where appropriate, as informed by our risk assessment, we will engage directly with new suppliers in respect of our modern slavery policy in order to gain a proper understanding of the measures that have in place to ensure that modern slavery is not occurring within their own business.
- All employees must immediately notify their Line Manager or the HR Manager of a suspected conflict or issues surrounding modern slavery and or human trafficking. Employees and suppliers are encouraged to raise any possible concerns at any time. Employees are protected under our Whistleblowing Procedure.
- We aim to encourage openness, and will support anyone who raises genuine concerns in good faith under this policy, even if they turn out to be mistaken. We are committed to ensuring no one suffers any detrimental treatment as a result of reporting in good faith their suspicion that modern slavery, of whatever form, is taking

[1] The Company refers to Donald Ward Limited and all associated trading names, including, but not limited to: Ward, Ward Special Projects, and Clancey and Sons (Clancey's of York).

place in any part of our own business or in any of our supply chains. Detrimental treatment includes dismissal, disciplinary action, threats or other unfavourable treatment connected with raising a concern. If you believe that you have suffered any such treatment, you should inform the HR Team immediately. If the matter is not remedied, and you are an employee, you should raise it formally using our Grievance Procedure, which can be found in the Company Handbook.

Responsibility for this policy.

The Board of Directors has overall responsibility for this policy and in ensuring that the Company complies with all its legal and ethical obligations.

The HR Team have the primary day-to-day responsibility for the implementation of this policy, monitoring its use and ensuring that appropriate processes and control systems are in place, and amended as appropriate, to ensure it can operate effectively.

All line managers are responsible for ensuring that those reporting directly to them comply with the provisions of this policy in the day to day performance of their roles.

Communication and employee awareness training.

Line Managers will ensure that all staff receive adequate training on this policy and any supporting processes applicable to their role. This is normally given at induction.

In addition, staff receive training on the broader issues of modern slavery so as to assist them in appreciating the extent of the problem of modern slavery and the identification of individuals / areas of the business that may be at risk from practices of modern slavery.

Breaches of this policy.

Any breaches of this policy will be taken seriously and shall be dealt with on a case-by-case basis.

The breach of this policy by an employee, director or officer of the company may lead to disciplinary action being taken in accordance with our Disciplinary Procedure. Serious breaches may be regarded as gross misconduct and may lead to immediate dismissal further to our Disciplinary Procedure.

Everybody to whom this policy applies will be expected to co-operate to the fullest extent possible in any investigation into suspected breaches of this policy or any related processes or procedures.

If any part of this policy is clear, clarification should be sought from the HR Team.

Status of this policy.

This policy will be reviewed by the Company's Board of Directors on a regular basis.

This policy does not give contractual rights to employees and we reserve the right to alter any of its terms at any time. We will notify applicable parties, in writing, of any changes which may affect them.

Signed: 

Date: December 2025

Name: James Balfour

Position: Director

Energy and Carbon Policy

Donald Ward Limited trading as WARD is one of the largest independent recycling companies in the UK and recognises that aspects of its operations consume energy.

We are committed to being as efficient as possible in our use of energy and natural resources in order to minimise our impact on the environment.

We are committed to becoming a zero-carbon business, and this will be underpinned by the following principles;

- Providing a framework for setting and reviewing objectives and energy targets;
- Consulting and engaging employees and contractors to ensure effective participation to achieve these objectives and energy targets;
- Complying with all applicable legal requirements and other requirements related to energy efficiency, energy use and energy consumption;
- Commitment to continually improving energy performance;
- Supporting the procurement of energy efficient products and services that impact energy performance;
- Supporting design activities that consider energy performance improvement.

Associated obligations and responsibilities will be communicated to all employees and contractors working for or on behalf of the organisation.

This Policy is available to the public and interested parties on the WARD website and will be maintained through periodic review to ensure its continued suitability.

Signed:

Donald Ward
Director
Date: 20 October 2026

Environment and Sustainability Policy

Our Environment Policy

Donald Ward Limited trading as WARD is one of the largest independent recycling companies in the UK**.** The environment in the areas where we operate is of upmost importance and our operational practices are focused on protection and preservation. The Environment Management System defines the actions we implement to continuously improve versus these aims. While we comply with all applicable environmental laws, we strive to achieve levels of performance that exceed basic compliance requirements. This policy demonstrates WARD's commitment to environmental excellence and our commitments in these areas – which are incorporated into our day-to-day business operations. This policy applies to and governs the conduct of all directors, employees and contractors.

Our Environment Commitments

The success of Environment at WARDs will be measured by achieving the following commitments:

- Conducting our business in a manner that prevents pollution, protects the environment, reduces waste and promotes the ecologically sound and sustainable use of resources
- Complying with all applicable environment laws, regulations, standards, and other requirements where we operate as a minimum but will strive to exceed these levels of performance through standardised best practices and controls
- Continuously improving all environmental aspects of our operations through measured leading performance indicators
- Seeking to eliminate hazards and the risk to the environment through the evaluation of all facilities supported by appropriate risk management principles and tools
- Educating, training, and motivating our employees (including contractors) to conduct tasks in an environmentally responsible manner
- Consulting and engaging employees and contractors to ensure effective participation in matters involving the environment.

Our Environment Framework

The framework to achieve the above commitments is our Environment Management System which is certified to ISO 14001:2015. The system provides a framework for the continued and ongoing improvement in environmental performance. This is achieved via the setting and reviewing of specific environmental objectives and targets. These are communicated throughout the organisation and all employees are committed to their achievement. Focus on the quality of materials purchased, processed and supplied by the organisation to minimise environmental impacts that may occur during, production, transportation and storage is also part of this framework to increase potential for recovery and reuse to support a circular economy.

The document is also publicly available on the WARD website and will be maintained through periodic review by the WARD Executive Board.

Health and Safety Policy Statement

Statement of Intent

This policy applies to Ward Group Holdings and its subsidiaries, including Donald Ward Limited (Ward), HB Insulations (Notts) Limited, and Opteco UK Limited. These entities are collectively referred to as the Ward Group.

The Ward Group is committed to providing safe and healthy working conditions for the prevention of work-related injury and ill health for our employees and others who may be affected by our activities.

We recognise the differing nature of our businesses and will maintain health and safety arrangements appropriate to the purpose, size and context of the Ward Group and the specific nature of our occupational health and safety risks and opportunities.

The Board and senior management will provide visible leadership, effective governance and appropriate resources to ensure health and safety is integral to our business activities and decision-making.

Our Commitments

The Ward Group will:

- **Eliminate hazards and reduce OH&S risks** by identifying hazards, assessing risks and applying appropriate controls, giving priority to elimination and the hierarchy of controls.
- **Fulfil applicable legal and other requirements** relating to occupational health and safety and periodically evaluate our compliance with those requirements.
- **Provide a framework for setting and reviewing OH&S objectives**, taking account of our risks and opportunities, operational priorities and opportunities to improve performance.
- **Consult with and encourage the active participation of workers and, where they exist, workers' representatives**, recognising their knowledge and contribution to effective health and safety management.
- Provide appropriate **information, instruction, training, supervision and resources** so that those working for or on behalf of the Ward Group are competent to undertake their activities safely.
- Encourage everyone to **report hazards, unsafe conditions, near misses, incidents and health and safety concerns**, and empower our people to intervene or stop work where they reasonably believe there is an immediate risk to health or safety, without fear of reprisal for doing so in good faith.
- Monitor our health and safety performance, investigate adverse events, learn from incidents and good practice, and take appropriate corrective action.
- **Continually improve our OH&S management system and OH&S performance**, using monitoring, consultation, audit, review and learning to identify and implement opportunities for improvement.

Everyone working for or on behalf of the Ward Group has a responsibility to cooperate with our health and safety arrangements, follow established controls, take reasonable care of themselves and others, and contribute positively to maintaining safe and healthy workplaces.

This policy will be maintained as documented information, communicated throughout the Ward Group and made available to interested parties, as appropriate. It will be reviewed annually and following significant change, where appropriate, to ensure that it remains relevant and appropriate to the purpose and context of the Ward Group.

Signed: **Date:** September 2026

Name: James Balfour **Position:** Director

Quality Policy Statement

Statement of Intent

This policy applies to Ward Group Holdings and its subsidiaries, including Donald Ward Limited (Ward), HB Insulations (Notts) Limited, and Opteco UK Limited. These entities are collectively referred to as the Ward Group.

The Ward Group is committed to delivering consistent, reliable and high-quality products and services that meet the needs and expectations of our customers and other relevant interested parties.

The nature and scope of activities undertaken across the Ward Group vary between our businesses. Our Quality Management Systems therefore take account of the purpose, context, strategic direction and operational requirements of the Group and its individual companies.

The Board of Directors is committed to establishing, implementing, maintaining and continually improving an effective Quality Management System in accordance with the requirements of ISO 9001:2015.

Our Commitments

The Ward Group is committed to:

- **Understanding our customers and interested parties** and consistently working to meet their applicable needs, expectations and requirements.
- **Satisfying applicable requirements**, including relevant legal, regulatory, contractual and other requirements to which the Group subscribes.
- **Maintaining a Quality Management System that supports the strategic direction of the Ward Group** and the effective management of our operations.
- **Establishing and reviewing measurable quality objectives** at appropriate functions and levels, providing a framework for monitoring and improving quality performance.
- **Providing appropriate resources, competent people, information and infrastructure** necessary to operate and maintain effective processes and deliver quality products and services.
- **Promoting a culture of quality and accountability**, ensuring employees understand their responsibilities and the contribution they make to the effectiveness of the Quality Management System.
- **Monitoring and evaluating performance** through appropriate measures including audits, inspections, performance indicators, customer feedback and management review.
- **Addressing risks and opportunities** that may affect the conformity of our products and services or our ability to enhance customer satisfaction.
- **Continually improving the suitability, adequacy and effectiveness of our Quality Management System**, our processes and our overall quality performance.

The Board of Directors has overall responsibility for ensuring that this policy is implemented and that appropriate arrangements and resources are in place to support its commitments.

This policy provides the framework for establishing and reviewing the Ward Group's quality objectives. It will be maintained as documented information, communicated throughout the organisation and made available to relevant interested parties, as appropriate. All employees and those working on behalf of the Ward Group are expected to understand and apply the principles of this policy within their areas of responsibility.

The policy will be reviewed annually, and following significant change, where appropriate, to ensure that it remains relevant and supports the continuing strategic direction of the Ward Group.

Signed: **Date:** September 2026

Name: James Balfour **Position:** Director
